

2022 Mentorship Program

Kickoff - August 1, 2022

Application deadline - July 3, 2022

Visit <https://www.ifpsmentorship.com>

Mission: To provide an opportunity for prospective and current fluid power professionals to engage with industry leaders to hone their leadership skills, grow their potential, build meaningful relationships and in general, navigate the fluid power industry.

Overview: This mentorship program will facilitate learning across a broad range of topics. Not only will you learn about the fluid power industry, but you will learn valuable leadership skills based on real industry experience. This structured mentorship program aims to match experienced leaders with emerging professionals to build a relationship based on trust, experience exchange, support, and guidance.

Application and Eligibility:

Mentee:

- Emerging professional looking to expand knowledge and network.
- Interest in a long-term career in Fluid Power
- Looking for relationship-based learning to accelerate personal development.
- Self-disciplined, ready to take charge to maximize the mentorship opportunity.
- Registration fee: \$99
- Age 18 and older

Mentor:

- Established leaders or subject matter experts in fluid power
- Willing to commit to 6-8 meetings across 4 months
- Looking to leverage their skills and experience to support positive development of an emerging leader in the fluid power community.
- Allow the mentee to direct the course of the program.
- IFPS Certified
- No cost to participate
